WORK EXPERIENCE

Internship

Mneja

July-August 2023

My work experience within the company has deepened my interest in the sales sector. During my internship, I was engaged in various activities within the company. I supported the sales team in presenting products to customers, assisted in organizing inventory, and participated in client meetings to understand their needs. I also gained exposure to negotiation and persuasion techniques used in the sales process.

PROJECTS

SDL GAME

Esprit

January-may 2023

I collaborated with a dynamic team to develop a real-time SDL (Simple DirectMedia Layer) game using the C programming language. This experience honed my software development skills and reinforced my ability to work effectively in a team environment, where I contributed to the design, implementation, and testing of the game. This project provided valuable insights into game development, programming, and project coordination, showcasing my adaptability and problem-solving abilities in a challenging and creative context.

ASSOCIATIVE EXPERIENCE

ORGANIZER (NMTC V3, NMTC V4)

2022-2023

National Microsoft technologies camp Event . Worked in team environments that involved extensive collaboration to obtain final results. Conducted numerous project presentations to audiences from five to fifty attendants.
